Subject: WY RH comments

Hey Laurel,

Please review draft comments -0098 and -0099 in the WY RH docket. The three comments you gave me to scan had already been submitted as one continuous comment via regulations.gov, so I added the searchable individual versions that I scanned as attachments and changed the title for clarity. -0099 was also submitted via regulations.gov. Please let me know if either requires edits or is ready to post. Thanks.

Adam Clark
